Sierra Landscaping*

Dear Ray:

We just wanted to thank you for the exceptional service on the construction of the retaining wall at our Vernon, NJ home. One never knows who to turn to with such a big project. But you came highly recommended by Soojian Brothers and we've been so happy with our decision ever since.

The degree of workmanship you provided far exceeded our expectations. The end product surpassed what we had hoped for. You took a useless piece of property and turned it into a park-like backyard. Thanks to you, our family had a place where we could enjoy the nature that surrounded our home. And in the end, your hard work made our home so much more appealing which in turn made it an easy sell.

Thank you again for your hard work and please know that we would only ever turn to you for any other landscaping projects we may have.

Sincerely,

Richard and Haydee Tulino
